# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On February 1, 1976
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
February 2 - 10, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of February 12, 1976 (based on reports from exporters during the week ending February 1, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 470,500 metric tons (MT), bringing this year's total commitments to 27.6 million MT compared with 28.3 million MT at the corresponding period a year ago. The largest increases in commitments were to Latin American destinations, principally to Brazil (135,700 MT) and Venezuela (131,700 MT). Commitments to Brazil have increased by an average of 212,700 MT during the last 3 weeks to bring this year's total commitments to that country to 2.5 million MT. Venezuela's total commitments now stand at 555,800 MT, over 25 percent ahead of the amount committed at this time last year. Other major increases in commitments were to the Republic of Korea (62,200 MT) and the Netherlands (51,000 MT). Japan continues to be a steady buyer of U.S. wheat with a 45,900 MT increase in commitments this week and a weekly average of 90,900 MT since the start of the marketing year. Japan's consistent buying is also shown by the fact that total commitments so far this year differ from those at this time last year by less than 3 percent.

Feedgrains: The apparent export commitment for feedgrains in 1975/76 jumped by 1.1 million MT, bringing this year's total commitments to 27.5 million MT. Corn commitments climbed by 928,800 MT, the largest weekly increase since the week ending November 9, 1975. However, about one-half of the 551,800 MT increase in commitments to the USSR largely reflected transfers from optional origin rather than new sales. The remaining 275,800 MT represent destination changes reported in last week's issue under the daily reporting system. Other major increases in corn commitments, largely on the basis of new sales, were to Japan, 197,100 MT; the European Community (EC), 105,400 MT; and Mexico, 93,100 MT. Total grain sorghum commitments rose by 125,800 MT, largely because of an increase of 83,800 MT to Japan. The total commitment of grain sorghum to Japan for 1975/76 now stands at 1.5 million MT, about two-fifths of total commitments to all destinations.

Most of the sales data changes involving the USSR in the last two months reflect contract adjustments between U.S. exporters and foreign trading firms. The data do not reflect new activity on the part of Soviet purchasing authorities. Since the December 4, 1975 issue, the main data changes are as follows: All wheat: grand total plus 10,000 M.T.; 1975/76 plus 135,000 M.T.; 1976/77 minus 125,000 M.T. Corn, grand total plus 281,000 M.T. reflecting mainly a shift to U.S. origin from another origin under already existing contracts reported in the January 29 issue.

Soybeans: The apparent export commitment for 1975/76 increased by 462,500 MT, primarily reflecting increased commitments from new sales to the EC, Japan, Spain, Taiwan, and unknown destinations. Exports during the week totaled 225,100 MT with the EC accounting for 106,100 MT; Spain, 36,000 MT; Japan, 30,300 MT; Israel, 17,500 MT; Taiwan, 14,900 MT; Norway, 10,200 MT; and Indonesia, 9,100 MT.

The USDA currently estimates Brazil's 1976 soybean crop at 11.3 million tons, down 200,000 tons from earlier forecasts. A smaller increase in planted acreage than had been earlier anticipated prompted the downward revision.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 62,700 MT, primarily reflecting increased commitments to France, East Germany, and Romania. Exports during the week totaled 89,900 MT with East Germany (24,500 MT), France (21,900 MT), Romania (11,100 MT), and West Germany (11,000 MT) being the major takers.

Cottonseed Oil: The apparent export commitment for 1975/76 increased by 6,600 MT, bringing total commitments to 158,700 MT. By February 2 last year, the apparent export commitment totaled 246,000 MT, a figure which later proved to be inflated by about 45,000 MT of outstanding sales to the EC which never moved to export. Egypt remains the primary U.S. market for cottonseed oil. The apparent commitment to Egypt this year totals 103,600 MT, compared with 83,400 MT at this time last year. Exports to Egypt this year are running 33 percent ahead of those of last year--56,600 MT in 1975/76 versus 42,400 MT in 1974/76. During 1974/75, total U.S. exports to Egypt were 197,300 MT.

Cotton: The apparent export commitment in 1975/76 for Upland cotton increased by 127,000 running bales (RB). New sales were mostly to Japan, the Republic of Korea, and Bangladesh. During the last 3 weeks, new sales for delivery this season increased by 467,000 RB, two-thirds of total sales during the first 6 months of the marketing year. Shipments during the week totaled 64,000 bales, one-third above the average for the last 4 weeks. Foreign cotton prices showed little movement during the week while U.S. prices firmed, bringing them to about 4 cents above those for the foreign growths.

OUTSTANDING EXPORT SALES AND EXPORTS - 1975/76 MARKETING YEAR  
Summary and Comparison of Selected Commodities 1/

Commodity	Week end- ing	Outstanding Export Sales			Cumulative Exports		Official USDA Export Projections

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account. 5/ Less than 1,000.

Data shown above may not add due to rounding.
